EDUCATIONCENTRES

Kip McGrath Education Centres

The first Kip McGrath Education Centre opened its doors in Newcastle, Australia in 1974 with the founding principle; “any child can learn if they are taught properly”.

We have been helping students with Reading, Spelling, English and Maths for more than 30 years. Today, Kip McGrath Education Centres is an internationally trusted name in the field of supplementary education, with over 680 education centres in 20 countries.

Free Assessment

Many parents are concerned about how their children are performing at school and whether their children are at the appropriate level for their age and class. We provide a free, no obligation assessment and discuss the results with you in detail to determine exactly how your child is performing.

Lesson duration

Lessons at the centres are 80 minutes long and students attend for one lesson a week. Some older children do attend more often, according to their needs. Even young children attend for 80 minutes - their lessons are broken up into six activities, to keep them keen and interested.

Lesson times

There are a variety of lesson times available to suit you and your child’s activities.

Homework

Homework is an essential part of the Kip McGrath program, particularly for Reading students. Centre Owners are aware of each student’s school workload so set homework is generally limited to around half an hour each week. If you have difficulty getting your child to complete the homework, please contact the Centre Owner.

How long will it take to solve your child’s problem?

Every child is different and every problem is different. After the initial assessment, the Centre Owner will be able to provide an indication of how long tutoring may be required and each student’s progress is monitored regularly.

We give parents peace of mind

We aim to solve the problem your child is having and many of our centres offer a money back guarantee. If at any time you want to discuss your child’s learning needs or progress, please feel free to contact us.
